

**LILLIAN AMBROSE IS
DISCOVERED IN TIME**

FOUND AT HOME OF FRIENDS
IN ROCKTON BY CHIEF OF
POLICE.

WAS IN COURT TODAY

Daughter Tells Story of Father's Un-
natural Treatment Since She
Was Fourteen Years Old.

Lillian Ambrose, whose tale of re-
volting treatment by her father, Wil-
liams Ambrose, led to her arrest on
Monday last and who disappeared from
her home on Rinsold street
Tuesday night, just before she was
to have appeared in court and testi-
fied to her complaint, was located late
last evening at Rockton, Illinois,
where she had been hidden with
friends, by Chief of Police Ransom.

Taken to Court.

This morning she was taken into
court and confronted her father,
where she told the police and district
attorney last Monday and her father
was held for trial, on the complaint
September third, at one thousand dol-
lars and it is probable that he will be
forced to remain in jail until his trial.

Girl's Story.

The girl's story of how she was in-
duced to leave her home and go to
Rockton, promises to create a sensa-
tion of more importance than has
been experienced in legal circles in
many years. Just what the attorney
will be taken to prove in the
trial, is not yet decided. It is
possible that he will be immune from
any legal action owing to the fact that
he is said to be a well known
attorney and that he will be taken to
bring the matter to the attention
of the grievance committee of the
county bar association that some ac-
tion may be taken by that organiza-
tion.

Induced to Disappear.

According to the story told by the
girl, an attorney well known in Janes-
ville, induced her to leave her home
the night before she was to appear
in court, and take the eleven
o'clock interurban car for Rockton.
She had a grandmother living in this
village, but she did not go to her
home, preferring to go to the home of
an acquaintance, R. A. Blackmer
where she was found by Chief of Po-
lice Ransom last evening and re-
turned with him to Janesville.

When the girl failed to appear in
court Wednesday the same attorney
mentioned in the story by the girl,
was suspected of having knowledge
of her whereabouts, but no definite
proof could be found of the fact. The
first clue to the girl's whereabouts
came when Chief of Police Ransom
received a mysterious letter late yes-
terday afternoon from the girl, the
letter being sent at Rockton, and
where she was staying. The letter
was written in pencil and was hard
to decipher. Acting on the tip,
the chief visited Rockton and found
the girl as described and brought her
back to Janesville.

Doctor's Testimony.

Aside from the girl's story told in
court this morning, Dr. F. B. Farns-
worth, who made the examination
for the district attorney, was the only
other witness. His testimony was
corroborative of the girl's story. At
Rockton, where she was found, the
attorney was given an opportunity
of questioning the witnesses, but
declined to do so until an attorney,
who is to be appointed by the
court, is named and he can obtain
legal advice.

Girl's Story.

The story told by the complainant
under the questions of the acting dis-
trict attorney, was clear and explicit
and such a shocking account of pa-
ternal depravity. She stated that her
father began his revolting treatment
of her when she was fourteen years
old, and had continued to do so until
the time she was taken to Rockton.
At one time he had threatened her if
she ever mentioned to anyone the
relations between them. Not until
last Monday did she inform her
father of her father's treatment of
her. In response to her question she stated
three dates in the last month's time
which she had been the victim of her
father's unnatural passion.

Miss Ambrose stated that she was
seventeen years old on July 20 of this
year. She had two brothers and two
sisters. Her mother worked in the
Green tobacco factory and she had
been employed at a local laundry
her father worked at the East Side
high barn. The alleged attacks upon
the complainant were made after her
mother had gone to work in the
tobacco factory and the children were at
play outside.

Other Testimony.

Dr. Farnsworth's testimony was a
report of a physical examination
which he had made last Monday. He
stated that the Ambrose girl had
been subjected to mistreatment of
the nature charged.
The Ambrose family moved to this
city from Clinton. Previous to that
time they lived on the Pember farm
in Johnston and in the state of
Iowa.

Mrs. Ambrose was not called to the
witness stand this morning and
was not in the courtroom.

Father Affectionate.

The defendant insisted on taking
the hand of his daughter and kissing
her as she was taken around him from
the witness stand.

Miss Ambrose was left in the cus-
tody of the chief of police until
bonds for her appearance in court on
the day of the trial to the amount of
\$200 were furnished.

New York, Aug. 22.—E. H. R. Green
only son of Mrs. Hetty Green and
prospective heir to the bulk of the
enormous fortune possessed by his
mother, today reached his 45th birth-
day anniversary. Despite the fact
that some day a probability he
will be one of the wealthiest men of
America, Mr. Green is a modest and
unassuming man who works hard
and indulges in few hobbies. The
past few years he has made his home
in this city, looking after some of the
great financial interests of his moth-
er, though he continues to spend a
part of each year in Texas, where he
is interested in railroads and other
enterprises. Mr. Green is unmarried.

**CASE AGAINST RAU
IS AGAIN ADJOURNED**

Defendant Not Able to Appear in
Court Because of Severe Attack
of Asthma—Certificate
Reduced.

Because of the illness of the de-
fendant, who was unable to appear in
court this morning because
of a severe attack of asthma
with which he was reported confined
to his bed, the case of the city of
Janesville versus Fred Rau, charged
with the sale of intoxicating liquor
without a valid license, has been
postponed until September 2 at 10
a. m. The plea for adjournment was
made by Attorney L. A. Avery, coun-
sel for the defendant, who presented
a certificate from Dr. George W.
Pitts to the effect that Mr. Rau
was too ill to come into court. The
certificate was accepted, but agree-
ment of the time of adjournment was
not made until early this afternoon.
Previous engagements of the attor-
neys and other cases on the docket
prevented the trial of the case before
the time set.

nearly a month of high temperatures
have been upon Kansas, the back-
bone of Missouri and Oklahoma,
breaking all records for intensity and
duration, burning up corn and other
late crops and producing desperate
drouth conditions in many sections,
the heat wave throughout the three
states was broken effectively today,
according to reports to the United
States weather bureau here. With a
drop of from ten to twenty degrees in
temperature, that daily have ranged
above the hundred mark, came heavy

died today in answer to her prayers.
Brief periods of lucidity during the
night which alternated with long
lapses into unconsciousness were
sought by the girl in prayer that she
might join her boy lover, Charles Rich,
who shot and killed himself after mor-
tally wounding her Wednesday night.
They had been sweethearts a few
months and had agreed to die to-
gether.

"O why don't I die? Why didn't
he shoot me right? I want to be
buried with him." She moaned con-
tinually, hiding the tears from her
mother and sister who were beside
her. They were holding her hands when

convicted on perjury testimony Dr.

University of Michigan, is suing
four of his neighbors in Pomona, a

spired to charge him with perjury
and of having induced his foster
daughter, Helen Thayer, 14 years old,
to swear he committed a statutory
offense against her.

Dr. Eichelberger was sentenced to
14 years in the state penitentiary at
San Quentin and served three
months before the girl, who in the
meantime had left the state, repudi-
ated her testimony. He was promptly
pardoned.

not explain, the bed clothing caught
fire and before it could be extinguished
the little fellow was badly burned.

**VOICE OBJECTIONS
TO CURRENCY BILL**

Two Hundred Bankers Confer in Chi-
cago on Owen-Glass Measure
Now Before Congress.

[BY ASSOCIATED PRESS.]

Chicago, Aug. 22.—More than 200
bankers delegates from the clearing
and banking association, assembled
here today to voice their objections to
certain sections of the Owen-Glass
currency bill now before congress
and make suggestions for a law which
they hope will bring about an im-
provement in the banking system of
the country. The conference was
called by the currency commission of
the American Bankers' Association.
Its purpose as explained by Frederick
Farnsworth, of New York, secretary
of the organization is to aid the ad-
ministration in "effecting good cur-
rency legislation."

The "keynote" address was by A.
Barney Hepburn, chairman. It was
heard by representative bankers from
all parts of the country.

He criticized features of the Owen-
Glass currency bill and advocated a
central bank with branches instead
of regional reserve banks. Many eyes
were turned on George M. Reynolds,
as he entered the hall. Mr. Reynolds,
president of the Continental and Com-
mercial National Bank of this city had
just returned from Washington where
he had a long conference with Sec-
retary of the Treasury McAdoo with
reference to the currency bill at to-
day's meeting. He said that he might
discuss the interview with the dele-
gates later in the afternoon.

Among the 200 or more bankers
present were Frederick E. Farnsworth,
New York City; Charles G. Davies,
Chicago; F. H. Rawson, Chicago;
George H. Russell, Detroit; W. E.
Lombard, Milwaukee; F. A. Chamber-
lain, Minneapolis; George H. Prince,
St. Paul, and delegates representing
48 state banking associations and 153
clearing house associations.

22 years old, and an unidentified wom-
an are dead here this morning as a
result of what is believed to have
been a suicide pact. Gross was dead
when found. The woman was uncon-
scious and died several hours later
without revealing her identity.

Earl Pritchard, in whose home the
tragedy occurred after being awak-
ened shortly after midnight by the
odor of poison found the couple ly-
ing with their arms about each other.
Two glasses beside the bed
the couple apparently having pre-
pared the fatal potion.

The police have been able to learn
very little about the tragedy. Gross
roomed at the home of Mr. Pritchard
and had been there only ten days.
He had a little about the woman
never mentioned any of his compan-
ions.

The woman had never been seen at
the house until last night.

THAW'S DEPORTATION**

THOMPSON BEING HELD

Postpone Hearing of Man Who is
Charged With Aiding Thaw in
His Escape Across the Cana-
dian Border.

[BY ASSOCIATED PRESS.]

Sherbrooke, Que., Aug. 22.—Thaw
has been advised by certain of his
counsel, it was learned today, to buy
property in Canada and take steps to
become naturalized as a British sub-
ject. This, it was held, would prevent
his deportation.

Postpone Thompson Case.

The hearing in the case of the self-
styled "Mitchell-Thompson" arrested
by the immigration authorities
charged with aiding a lunatic—Harry
K. Thaw—in crossing the Canadian
frontier, was postponed today until
Friday next.

Thompson was arraigned before
Police Judge Mulvena shortly after
ten o'clock.

He came into court disguised by a
pair of smoked glasses. Pictures of
Gentleman Roger Thaw arrived during
the night, however, and Sheriff
Hornbeck of Duchesne county, holding
one of these and gazing at the pris-
oner, said:

"Who could miss it? It certainly
is Roger."

Thompson said not a word.

The little court room was packed
to overflowing.

Spends Restless Night.

Thaw appeared this morning to
have spent a restless night. His hair
was disheveled, his collar awry and
his eyes staring. His breakfast laid
out on a table for him had not been
touched. He said again today that
he hoped soon to give an account of
his escape. He was jotting down
notes on the incidents. He had been
supplied with the New York and
Montreal papers and read every word
bearing on his case.

The motive for the im-
migration authorities causing the
Thompson case to be postponed lies
in the fact that the charge on which
he is held is punishable only with a
fine. He could pay that once and
leave for parts unknown. The war-
rants from Duchesne county charging
him with conspiracy is not regarded
as sufficient basis for extradition. To
patch up this loop-hole more time is
needed.

May Interest Bryan.

Thaw broke away from his lawyers
last night long enough to frame a tel-
egram to a friend in Pittsburgh say-
ing that he, Thaw, had telegraphed
through a third party to ex-Governor
Stone of Pennsylvania to Secretary
of State Bryan in his behalf. Thaw
added that he was the "underhand
influence from some other state ex-
ercised to prevent his journeying to his
home."

The "governor" of the Sherbrooke
jail laughed today when asked if spe-
cial guards had been detailed to
watch Thaw. He admitted that this was
true, but it is understood that pre-
cautionary measures have been taken
at the request of District Attorney
Conger of Duchesne county and his al-
lies, the immigration authorities.

No Word from Bryan.

Dublin, N. H., Aug. 22.—Secretary
of State Bryan's personal telegram
notifying the British ambassador, Sir
Cecil Arthur Spring-Rice, that Harry
K. Thaw, wanted in the United States,
was held in Canada and the subject
of probable deportation proceedings,
has not been received at the summer
embassy here this morning.

If I find that it is a matter requir-
ing the official attention of the Cana-
dian authorities, I shall simply for-
ward the message of the secretary of
state to Ottawa," said the ambassa-
dor. "Extradition of prisoners is not
a matter for the diplomatic depart-
ment."

ously injured yesterday near Neosho
when her brother, 13 years old,

on the little girl who was standing

near the heart and penetrated the
kidney. It is feared she will not re-
cover.

**Cutting Factory
Costs!**

There are two ways of lower-
ing the burden of overhead ex-
pense. The best way is to in-
crease sales to the limit of pro-
duction.

Lower fixed charges through
increased output means more
profit to the manufacturer and
lower prices to the consumer.

Advertising for the benefit of
your local dealers in news-
papers like The Gazette is the best
way to increase sales. The more
sales, Mr. Manufacturer, because
it reaches the consumer directly
and because it interests and en-
thusiasms the merchant.

Live merchants seek live prod-
ucts.

Live merchants here advertise
in The Gazette because it pays.
They have confidence in push-
ing nationally and distributed
goods advertised in this news-
paper because there will be a
demand for those goods.

Merchants should impress on
manufacturers the fact that they
are interested in the sales pro-
motion work done right here in
their home town.

Merchants and manufacturers
interested in local advertising
for nationally distributed articles
are invited to write to the
Bureau of Advertising, American
Newspaper Publishers Association,
World Building, New York.

**NEAR FOUR MILLION
LOST THROUGH FIRE**

State Fire Marshal Clem P. Host
Files Report With Governor—
Heavy Losses in Rock
County.

[SPECIAL TO THE GAZETTE.]

Madison, Wis., Aug. 22.—Fires
caused property losses aggregating
\$3,886,430 during the past year ac-
cording to the report of State Fire
Marshal Clem P. Host, which has
just been filed with the governor.
There were 2,353 fires during the
past year, the loss was in ex-
cess of \$25 in Milwaukee, there
were 550 fires and the loss was \$655,
970; in Dane county, 33 fires with a
loss of \$105,290; in Douglas county,
116 fires with a loss of \$45,430; in La
Crosse county 48 fires with a loss of
\$325,795; in Fond du Lac county 46
fires with a loss of \$77,850; in Rock
county 36 fires with a loss of \$271,035
and in Winnebago county 57 fires with
a loss of \$65,230.

"Last year we burned to death 112
people in Wisconsin," says the report,
and seriously injured in the neigh-
borhood of 335 more. If this were
the result of some uncontrollable
cause, it would still be a very serious
doctrine of fatalism with respect to
the causes of fire, the lethargic atti-
tude of our people toward a reduc-
tion of the fire and waste would be
explicable, if not excusable. But we
are able to say today with a consid-
erable degree of definiteness, that at
least 60 percent of our fire loss is
due to easily preventable causes."

They were last year 233 fires re-
ported as caused by defective chim-
neys, causing losses amounting to
\$325,265. There were 67 fires result-
ing from chimney sparks causing
losses of \$10,600. There were 194
fires during the year, causing loss
of \$83,215 caused by stoves too near
wood, 63 fires causing losses of \$52,
095 resulting from stove pipes too
near wood and 29 fires from heating
pipes too near wood, with losses of
\$70,385.

The report states that there have
been 6,000 individual inspections of
premises in 230 cities and villages.
Corrections of defects had in most in-
stances been made promptly and
cheerfully on the oral request of the
inspector. However, in 1,459 in-
stances it was necessary to serve
written orders for the eliminating of
the fire hazard. During the past
year there were 38 prosecutions for
arson. In 19 of these cases convic-
tions were secured and sentences fol-
lowed. In four other cases the de-
fendants were lodged in insane
hospital while in seven cases the de-
fendants were bound over by the
court, and their cases are still pend-
ing. The other eight cases were ul-
timately dismissed.

The Company is the oldest company confining itself entirely to Compensation Insurance; has a larger Wisconsin premium income, has issued more policies, covers more lives, and has provided compensation for a greater number of industrial accidents in this State than any other company, and has saved its policyholders more than \$325,000.00 in premiums during the past two years.

The Policy of the Company covers the Employer completely and provides for complete release from liability incurred.

Its premiums are fixed after inspection according to an Individual Merit Rating System, thus giving to the careful Employer the lowest rate with a constant incentive for accident prevention.

LOCAL MAN SHADOWED AT FAIR YESTERDAY

Evansville Police Get "Wrong" Tip From Janesville Policemen And Officer is Nearly "Pinched."

Two Evansville young men, one a member of the local police force and the other employed by the Northwestern railroad, had a hard time dodging the strong arm of the law at the Evansville fair yesterday. It was only with the persuasion of Conductor J. J. Dulin, that the Evansville sleuths released their watch on the men and let them depart in peace instead of spending the night in the city pest house.

The whole affair was the outcome of a joke by a Janesville policeman who was on special duty at the fair, tipping off the Evansville force that two desperate crooks from Janesville were due to land at the fair that day and they would probably try and ply their light fingered trade among the crowds. When the innocent Janesville men arrived at the village early in the morning, the Evansville movements and the village. Sherlock Holmes shadowed his intended victims in every move they made. While watching the races the gun shoe man was at their heels and while admiring the many exhibits the Janesville men were watched for suspicious moves. The policeman and the railroad man soon discovered that keen eyes were upon them at all times and tried to give the sleuths the slip but it was useless for where they went, the modern Holmes was right at their heels. At dinner he sat beside them and ordered the same food as they did. In the afternoon it became worse for if the boys shouted their praise at the horse race or a brilliant play in the ball game, the sleuth, regarded them with still more suspicious glances.

The climax of the affair came when they were about to board the train and only that the conductor on the train knew both men saved them from spending an unpleasant night behind the bars. Anxious to obtain a seat the boys went up the platform, and caught the train on the fly, and the Evansville detective thinking that they were making their get away made haste to convince them that he was still on the job. Conductor Dulin's message and asked Mr. Dulin's opinion as to their reputation among the criminals of the world. On investigation the two innocent crooks were discovered in the smoker calmly talking over the day's events. When the sleuth was about to put the shackles on them the conductor recognized the Janesville policeman, and the railroad man whom he sees every day. He gave the sleuth the laugh and told him he was on the wrong track.

There is no better way to dispose of your house or other property as through the medium of the want columns.

It is one thing to make soda crackers that are occasionally good.

It is quite another thing to make them so that they are always better than all other soda crackers, always of unvarying goodness.

The name "Uneeda"—stamped on every biscuit—means that if a million packages of Uneeda Biscuit were placed before you, you could choose any one of them, confident that every soda cracker in that package would be as good as the best Uneeda Biscuit ever baked. Five cents.

ADDITIONAL WORKERS ON BRIDGE TO COME

Foreman and Eleven Workmen Expected to Arrive in City Today

Gas Main Cut This Morning.

Additional bridge workers to the number of twelve, including a foreman, are expected to arrive here today and begin the construction of the new Milwaukee Street bridge from the east bank to the middle of the stream. The big twelve inch gas main underneath the old bridge was cut this morning, the temporary main underneath the Fourth Avenue bridge having been completed and in commission. It will be torn out as rapidly as the old bridge is razed, the delay in cutting the telephone cables has also occasioned a delay in the bridge work, but the telephone companies have given assurances that they are replacing them with all possible despatch. As much progress as is possible under the circumstances is being made in driving sheet-piling for the abutment cofferdam.

All the steel reinforcing for the concrete is here at the material to be used in building the cofferdams for the piers. Havemeyer bar from one-half inch to an inch in diameter, will be used for reinforcing the Weighfield sheet-piling for the pier cofferdams. The latter was once patented, but the patent has expired. It is very effective in keeping out the water, the secret of its efficiency being a tongue and groove joint. The cofferdam sheet-piling will come from La Salle, Illinois.

Vice-president Leopold of the Gould Construction company states that Janesville is an unusual town for the reason that they have found it possible to buy their hardware and supplies at retail whereas in other cities where they have had contracts the prices were prohibitive. Consequently the company is spending considerable money in the city.

FRIDAY. YES, A BANK ACCOUNT MAKES ONE FEEL RICH.

SPORT Snap-Shots

George Stallings, chieftain of the Boston Braves, has a fifteen-year-old son in Atlanta, Ga., who is expected to become a big league player pretty soon. The boy, who is nicknamed "Maggie," is picking for the White Sox team of amateurs in Atlanta. He has a good curve, excellent control and a wicked fast ball. He is one of the best amateur pitchers in the Georgia metropolis. Incidentally, he is a better first order. The boy's pa says he won't let baseball interfere with the lad's education. "Maggie" wants to "burn up" the colleges and then be a star in the majors later on.

Dasher Troy, baseball veteran of decades ago, has this story to tell about Jack Glasscock, who was once one of the best shortstops in baseball. "After 'Felix' had slipped out of the big leagues," says Troy, "he went down the chutes until he was playing in Marion, O. Jack had only his reputation and a good head to go by with and no one knew it better than I. One afternoon he was having an unusually hard time and after he had booted a few and mused up plays the fans turned loose on him without mercy. Jack bore up manfully and kept at it with-out a whimper. After the bleacher crowd had howled until their lungs

were sore, Glasscock strutted over and without a trace of a smile announced: 'Say, if you fellows don't let up on me I'll get even with every one of you. I'll come back here next year and play.' After that Glasscock was never booed."

"Let 'em rave all they want," remarked Clark Griffith the other day, "but take it from me if Frank Navin will sell Ty Cobb for \$100,000, the Washington club stands ready to give that much for him. The Washington manager insists his offer of \$100,000 was made in deadly earnest and that the Nationals are willing to give a tenth of a million for the Tiger star."

The Washington end of the yarn has it that Navin has often made the crack that if any club had the nerve to give \$100,000 it could have Cobb. And Griffith is supposed to have called this bluff, with the result that Navin, as a cover up, sprung the excuse that the Nationals had better pay for their park before offering huge sums for star players. To which the answer is made that the Nationals have raised all the money loaned on bonds by American league clubs, and that its indebtedness has been reduced to a few small bonds carried by a Washington bank; secondly, that if Navin will dispose of Cobb for \$100,000 Griffith will raise the money in 72 hours.

ENGLAND GIVES UP ONE MORE SPORTING TROPHY: CANADIAN CARRIES OFF MEDAL

Carrying winner of king's gold medal for shooting off the field at the Bisley meet.

Most reluctantly John Bull has yielded another sporting trophy. This time his best marksmen have been defeated by a Canadian—Private W. Hawkins of the Forty-eighth Highlanders at Toronto. In the accompanying picture Hawkins is seen being carried off the field at the close of the recent meet in Bisley, England, in which he won the king's gold medal.

will fight for their places on the eleven are Keeler and Gelein, guard; Captain Tandberg, fullback; Powell, center; O'Leary, end; and Butler, tackle. Other "W" men who will report are Alexander, Tormey and Berger, serve squad, and also to members of Coach Wilce's freshman squad, 14 were addressed to men who have already won their "W's" in football.

At the conclusion of the 1912 championship season, the athletic board of the university awarded letters to 19 men and of this number only six have been lost by graduation, leaving 13 letter men. This number has been increased by the availability of one player who won his letter two years ago but who was cut of football last fall with injuries. While the Badgers have suffered hardest in the backfield, losing Gillette, quarterback, Buchl and Van Riper, halves, they still have left Captain Tandberg, fullback, and the entire second team quarter. The line is intact with the exception of ex-Captain Joseph Jostel, who has left school, and Edward Stamp, left tackle, who completed his academic work in June and who will coach the Hamilton (N. Y.) college team.

Five of the men who will return were picked for the All-Western team by the football critics at the conclusion of the season, while one, Robert Butler of Montclair, N. J., was selected by Walter Camp for his All-American team, an honor which was never before accorded a Wisconsin player. The All-Western players who

Opportunities for doing greatly seldom occur; life is made up of infinitesimals. If you compute the sum of happiness in any given day you will find that it was composed of small attentions, kind looks, which made the heart swell, and stirred into health that sour, rancid film of misanthropy which is apt to congregate on the stream of our inward life, as surely as we live in heart apart from our fellow creatures.—F. ELMER LEE IS SIGNED BY KOSCIUSKO LEAGUE TEAM

Elmer Lee, who has been employed at the Chicago, Milwaukee and St. Paul round house at Janesville, and who has been playing ball for the Port Washington team in the Lake Shore league, has been purchased by the Kosciuskos of the same league. Lee played shortstop for the Port Washington nine and it was aimed to get him at the same position with his new teammates as he is one of the fastest in fielders in the league. Lee has also played several games with local lines, but will devote his Sundays in playing ball with the Kosciusko nine.

Coach Yost of the University of Michigan will soon be back at Ann Arbor, getting his men in readiness for the fall campaign. Invitations to take part in the pre-season practice on Ferry Field, beginning September 16, have been sent to thirty-three players.

Coach Yost.

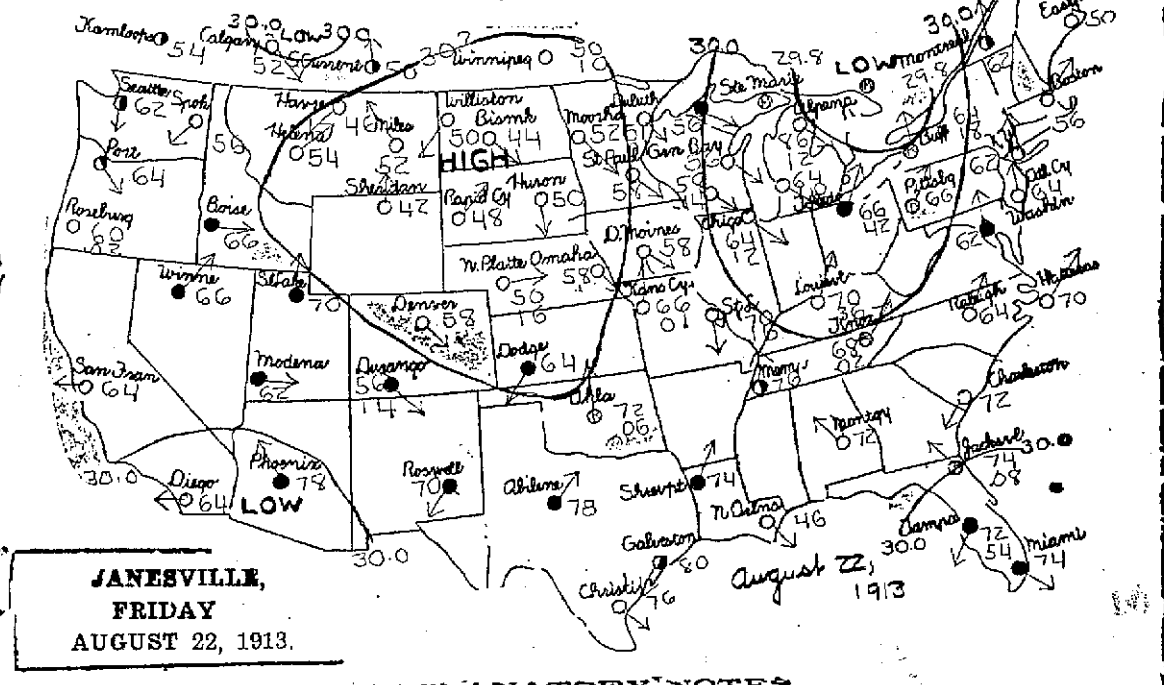

CHANCE DETERMINED TO BUILD UP TEAM

Cook.

Frank Chance, manager of the New York Yankees, is spending a good deal of money in the hope of making his tail-end organization a first division team next year. To this end he has recently acquired, at great expense, three promising recruits: Cook, center field; Maisel, third base; and Williams, first base. They have all made good records in the minors this season.

NEED A REST.

The Chicago Inter Ocean gives as its expert opinion that the people need a rest from the dickering of congress and that the republican senators who are making their fight against the present tariff bill should permit it to come to a vote, and the extra session and give the country a rest. It adds: "It will need, for the days that are coming, all the rest it can get before the Woodrow Wilson tariff act goes into effect."

It is good, sound doctrine to follow. Just at present the friends of Senator La Follette are most anxious to know where he stands on the situation.

In his paper he has already strongly criticised the caucus idea which prevailed as to the adoption of the bill and it is known there are schedules in the bill, such as the sugar, woolen and cotton schedules, to which he is strongly opposed.

It is also known that Senator La Follette has been hard at work studying the bill and that he is planning to make an exhaustive speech for amendments to the measure. The question is, if these amendments are rejected as they are almost certain to be, what Senator La Follette will do then. By many it is believed he will vote against the bill altogether and thus re-emphasize his support of the republican tariff ideas, while still others seem to consider that he will vote for the bill on the ground that although he does not consider the measure perfect he considers it preferable to the Payne-Aldrich law.

The Wisconsin friends of the senator most of them incline to the belief that he will oppose the bill, and they base their belief on the declaration that they are aware Senator La Follette considers the sugar schedule would not only be injurious to the nation at large but a particular injury to Wisconsin.

As a matter of fact, however, no one, not even the closest friends of the senator, seems to know anything about his real plans, and it is not probable that anybody will have any knowledge as to how he intends to vote on the tariff bill until he makes his statement on the floor of the senate.

FAIR TREATMENT.

There should be no discrimination on the part of the city officials relative to their treatment of the retail liquor question. Janesville has forty-two retail liquor shops, each of which pays five hundred dollars a year into the city treasury. Each has prescribed rights laid down by laws and city ordinances. One is that they shall be closed at eleven o'clock each night and remain closed on Sunday. The majority of the holders of the licenses obey these laws literally, but some evidently believe they are immune and violate the laws openly without prosecution. Last week, during the race meet, two saloons were open for business for long hours after the rest had closed. Patrons driven out at eleven from other places of business found a ready haven in these two and enjoyed themselves to the fullest extent. So brazen was the violation of the law that it is surprising that the officers on the beat did not report it, and if they did, why was there no legal action taken? If the closing hour applies to one saloon it should apply to all. No favorites should be played. The majority of the voters of the city on July 22nd last decided they wished a city conducted on the basis of law and order and it

Sunday closing it is suggested that a careful inspection of some of the saloons will demonstrate that they are evading it and that liquor is sold. It is current talk that this is a fact and if there is any truth to the statement it is time to call a halt and exert the authority vested in the officials by law. Fair treatment to all and equal rights for all is a safe motto to follow.

OUT OF THE MUD.

Fifty thousand citizens of Missouri have given a genuine demonstration of "pulling Missouri out of the mud" during the past few days and it is said that as a result of their personal work some four hundred miles of good roads have been created. It is a remarkable demonstration of the earnestness of the American people when fully aroused. What has been done in Missouri can be done in other states and wonders accomplished. The old days when the farmer could work out his road tax by a few days of road, dumping a few loads of gravel in the middle of it and then letting time wear it down into the semblance of a pathway, is past. Instead systematic road building has arrived on the scene and come to stay. Wisconsin is doing a great work in this direction, but still much remains to be accomplished before the work is complete. The real value of roads are becoming recognized by cities. Racine and Kenosha have donated large sums of money for the construction of county roads leading into the city. It is a good idea and one that should bear fruit in Janesville.

DEMONSTRATES TRUTHS.

While Senator Penrose's resolution to prepare for an invasion of Mexico and to appropriate twenty-five million dollars for this purpose, has the twang of jingoism, still it demonstrates the one main fact that in time of need the people of the United States are behind the president, be he a democrat or a republican. Senator Penrose is one of the republican leaders of the senate and his ready support of President Wilson should show to the world that it would not be safe to play double with Uncle Sam. Huerta should be warned in time that his opinion of Wilson is a mistaken one and that behind him are the arms and guns of the American people with the millions needed to bring Mexico to time if necessity arises to do so.

No judge has as yet been appointed to fill the vacancy caused by Judge Fifield's appointment to the probate judgeship. It is to be hoped that a man well-fitted for the office will be named and the appointment will not be made on a political basis pure and simple.

"Well, I certainly will support Gardner," says Senator Lodge concerning the Massachusetts governorship fight. At that Gardner won't be the first man to be supported by his father-in-law.

Lieutenant Governor Glynn says that when he is established as governor of New York, in Sulzer's place, he will be safe and sane. But in the meantime, what?

Lorimer intimates that he will stand for re-election to the senate in Illinois. Apparently he overlooks the fact that there can't be any "jack-pots" next time.

The wise injunction, "Feed the brute," is to be given a new test. Chicago contemplates giving a monster dinner as a means of getting the elephant and the bull moose together.

It is to be hoped that the moving of Governor Foss' factory to Canada will not result in strained relations between this country and the Dominion.

A wild man has been caught near Pittsburgh. Probably he didn't have enough money to take him to New York.

Until these days of diaphanous gowns, mere man was obliged to confess that he was unable to see through a woman.

Probably, if there should be war with Mexico, the democrats could be prevailed upon to let the republicans fight.

The congressional orators having got as far down as the decline of the Roman empire, there is hope that the tariff bill will soon be disposed of.

One of the most picturesque features of the governmental situation is the intense silence that is being maintained by Albert J. Beveridge.

Newark, N. J., has a woman hack driver. And the News of that city is unkind enough to refer to her as a cabaret.

Money is talking for Governor Sulzer now, whether it did during his campaign or not.

L. E. Plinkham has been appointed governor of Hawaii. No, his first name is not Lydia.

PURE MENTAL

Breakfast Food.
The lights of dawn were rising fast. When unto me the waitress passed. At breakfast time, so help me Mike, Some stuff that looked and tasted like

Excelsior.
She said that it was dandy stuff. To make my muscles good and tough. She filled my order six times over. And still I chewed up more and more Excelsior.

This thing went on for many days. The waitress worked in relays. My face assumed a wooden look. But still each morn I grimly took Excelsior.

My friends advise, as all friends can. That I'll become a wooden man. They say there is no doubt of it. Providing that I do not quit Excelsior.

But if I do the world is mine. I'll hire out as a cigar sign. My life's ambition, this will fill. I'll never work, but just stand still. Excelsior!

tel Hoppertown, says there ain't much money in the hotel business now, as on account of the financial stringency most of the drummers put up at the Farmers' Ten-Cent Feed Barn. Prof. Hiney says the clarinet is one of the hardest instruments to learn to play on and by golly, it is also one of the hardest to listen to.

Ninety in the shade is nothing unusual in these parts. There are generally more than that in the shade. In fact there is nobody anywhere else during the heated period. A dago with a hand organ and a monkey was in our midst the other day. This place may not be so large as New York or Chicago but it has got all the metropolitan frills. There was one accident however. The hand organ man carried off Hank Tumma's youngest kid by mistake and the monkey is now confined in the city lockup waiting for the owner to come back and claim him. Elmer Jones has got the hives now and Miss Amy Prince, our milliner, calls him her "honey boy."

The Diary of the Bonehead.
There is only one comfortable way to carry a watermelon home and that is in a wheelbarrow. When you start home with a watermelon in your arms, it may weigh ten pounds when you start but it will weigh eight or ten pounds before you have gone three blocks.

There is only one thing harder than carrying a watermelon home and that is carrying a mattress up stairs. And Luther Burbank wants to make himself an immortal of immortals. He will stop monkeying with spineless cactus and odorless onions and invent a watermelon that has a handle like a traveling bag.

Last night I bought a watermelon on the way home and had only sixteen blocks to carry it. Buying watermelons is a habit more insidious than the drug habit and harder to shake than the drink habit. No matter how often a man is stung, he will go and buy another watermelon. Some people believe that it is possible to buy a good watermelon at a grocery store but I have reason to doubt it very seriously.

I wrestled with that watermelon one block and came near to being arrested three times for bumping into pedestrians and shunting them off the sidewalk. First I carried it in the arms like a baby. Then I carried it over the shoulder like a sack of meal. Then I carried it like an armful of wood and finally I carried it like a bushel of corn. I am positive that watermelon weighed forty-five pounds when I started and 100 pounds after I had gone the first block.

Finally I tried to hire a small boy to take it in his little wagon but he refused. Then I bought his wagon for \$3 and put the melon in it and got it to the long flight of steps which lead up to my house. Half way up the melon slipped and rolled down the steps and out into the street scaring a horse which ran away and smashed a perfectly good lamp post. I settled for \$100 on the spot.

With the aid of three neighbors I cornered the melon and carried it to this house. Finally I cut it open, the interior was a pale pink and it tasted like seaweed. Never again.

Heart to Heart Talks

By JAMES A. EDGERTON

GENUINE AND COUNTERFEIT.

Many are deterred from seeking religion because there are hypocrites who profess it. Would these people cease trying to make money because there are counterfeit coins in circulation?

A thing must never be condemned because it has imitations. Rather are those unintentional testimonials to its worth. For were it without merit no one would care to imitate it.

The fact that there are wolves in sheep's clothing is no reflection on the sheep. That there are imitation diamonds does not detract from the value of the real stone. That any one assumes a virtue he does not possess is an unconscious tribute to that virtue.

There can only be an imitation where there is a real article to be imitated. Otherwise there would be no model. Nor would there be an incentive. Men only counterfeit those things which people esteem. The genuine always precedes the spurious. So the existence of the spurious always proves that somewhere is the genuine.

The fact that there are imitation religionists is very sincere testimony to the true religionists. That there are hypocrites is all the more reason that every one else should seek to be really good. All are not false. There is truth somewhere.

After all, much of the hypocrisy we think we see in others may come from our misunderstanding of them. We are never qualified to judge another until we can put ourselves in his place, see through his eyes and feel with his consciousness. After that we shall not desire to judge him. Our main concern is to get right ourselves. Then we shall be surprised to see how nearly others are right.

If you would realize how beautiful the world is get beautiful in your own spirit. It is wonderful what a transformation it works. Try it.

CATTLE, HOGS, AND SHEEP

The meat supply of the country is not keeping pace with our increasing population, with the result that the average price of meats has climbed higher and higher. By keeping posted on the supply of and demand for all meats and grains, farmers have an opportunity to develop that end of their business which is most profitable. A general knowledge of the farm situation for the entire country is necessary. For this reason this Bank issues a condensed Crop Report each month, which will be sent to you regularly, if you wish it. It will surely help any farmer in planning his crops.

WILL CLOSE GROUNDS ON THURSDAY NEXT; TO HAVE FIELD DAY

Boys Camping at Keshkonong Given Up Because of Disinterest—Swimming Meet Wednesday.

On August twenty-eight Janesville's first year of successful playground work will be brought to a close after a record breaking attendance at both the Keshkonong and Jefferson school playgrounds. Elaborate plans have been made to make a grand closing of the work with the big water meet at the Goose Island swimming beach and the efficiency test at the Jefferson grounds next week.

It has been decided by the directors that the winner of the first three places in the swimming meet will be awarded with appropriate ribbons. The meet is to take place on Wednesday afternoon at two o'clock. It is also hoped that the directors can induce the launch owners to hold races and make the affair into a river regatta and if this event is added to the meet a large crowd may be expected to attend the closing of the swimming instructions.

Because it would necessitate the closing of the grounds at Keshkonong thus depriving the children of a chance to play at their usual times the idea has been given up.

The plans are for a successful year's work for the coming summer are attracting a great amount of attention from the parents of the children and the directors are hoping that the citizens will be interested enough in the matter to provide the building of both houses at Goose Island for the swimming classes.

Mrs. L. R. Finley, and Miss Doris Law, of Cadillac, Michigan, are visiting Messrs. Finley and Law. Mr. Finley has accepted a position offered to him by the Racine board of education to take charge of the physical culture work at the Racine high and public schools and with his wife will leave immediately after the closing of the playground work in this city for Racine. Mr. Law will spend the winter attending the International school for Y. M. C. A. work at Springfield, Mass. It is hoped by the children of the two playgrounds that both men will be placed in charge of the work in this city next year as both have pushed the playground idea to a point where it is accomplishing a world of good in the city.

McALPINE MURDER CASE

REMAINS MYSTERY STILL

[BY ASSOCIATED PRESS.]

Duluth, Minn., Aug. 22.—"We will have the transcript shortly and then we will know what to do. There are several things we cannot understand and may be able to understand after we read the testimony in full again," said Chief Troyer today, in speaking of the McAlpine murder mystery.

Braininess.

"Yes, Miss Sharply, I assure you," said the uninteresting young man she was trying to shake, "the robber presented a revolver at my head and declared he'd blow out my brains if I didn't yield." "Oh," replied she, "why didn't you yield?"

Zulu Girls Do Not Work.

The girls in Zululand are not allowed to work until they marry, because the stronger they are the more their husbands will pay for them, so until after they are sixteen they have a good time. After marriage they do all the work for their husbands, who sit about and watch them.

Dinner Stories

Hubby returned home rather late—well after midnight, to be precise—and, as often happens in such cases, wifey, though abed, was not asleep.

In consequence breakfast that morning was a gloomy, silent meal. In vain hubby strove to clear the air, and, by ill-timed levity, to dispel the atmosphere of constraint which hung heavily everywhere.

"A penny for your thoughts, my love!" he ventured presently.

The lady thus addressed stared at him grimly.

"For 'two,' she retorted, 'I'd say exactly what I thought of you!'

Hubby made no effort to raise the bidding.

A young woman in a music store in Chanute was seated at a piano playing one of the favorites of the great tenor, Caruso. His picture adorned the cover page of the selection. A customer approached and was looking over the latest of the popular songs. She picked two of the most pronounced variety and remarked:

"That man sure can sing some!" referring to the likeness on the place the clerk had been playing.

"Why, where did you hear him?" the music saleslady asked.

"He was singing in a store down at Parsons when I was there last winter," returned the customer.

Yesterday's races were handicapped by the condition of the track which was slow owing to the heavy rain of the morning. In the three-year-old trot The Rebuttal, who was the favorite at the races here, but failed to show form, took two consecutive heats. Melo, a fast mare owned by H. Neul of Chicago, won the 2:24 trot in a field of six starters. The track was in such poor condition that the pacers were not put on. The 2:25 pace was added to today's card, the program starting promptly at twelve o'clock. Following are Thursday's results:

Purse \$300; 3-year-old Trot.

Col. Riser 1 1

Margaret Helms 2 2

Early Victor 3 3

Angus Axworthy and Trampie also started.

Best time—2:28 1/4.

2:24 Class Trot—Purse \$400.

Melo 1 1 1

Marie 1 5 2

Senator La Follette 2 3 6

Rothleya 7 3 6

Bessie B. and General Oakley started.

Best time—2:23; 2:24 1/4.

In the ball game this morning the Stoughton team was victorious by the score of 1 to 0. The contest was an exciting one but was mainly a pitchers' duel. The Stoughton twinner failing to allow a hit off his delivery. Stoughton's lone tally came in the sixth inning.

The livestock exhibits are larger than ever before with the following showing: 171 head of cattle, 135 head of hogs, and 228 head of sheep. There were fully 6,000 persons on the grounds today.

It is anticipated that Saturday will be a big day owing to the fact that it is "Janesville" day. The Janesville Moose band will furnish an excellent musical program throughout the day and the Janesville Cardinals will meet Stoughton, the winner of today's game.

Knew Which Dime He Lost.
A man sent his neighbor's little boy to the drug store to buy five postage stamps. He handed him two dimes, the extra one being for himself. Some time afterward the boy came back blubbering, and said he had lost one of the dimes. "But why didn't you buy me the stamps?" asked the man. "Because, mister," replied the boy, "it was your dime I lost."—Judge.

But It's a Common Failing.
Self-made men would find this a more sociable world if they were less inclined to talk shop.—Puck.

LORD COMOYS TAKES BRIDE TO OLD HOME

Lord and Lady Comoyo.

Typical old English scenes were witnessed at the little village of Stoner near Henley-on-Thames when Lord Comoyo took his American bride for the first time since their marriage nearly two years ago to his ancestral home at Stoner park. The villagers cheered to the echo when they saw the coming of their lord and lady and the three-week-old baby of the titled pair.

Lady Comoyo was the former Mildred Sherman, daughter of Mr. and Mrs. W. Watts Sherman, well known in New York and Newport society, and was bridesmaid at the wedding of Miss Gould to Lord Decies. Lord Comoyo, the best man at the wedding, was charmed by the beautiful bridesmaid and the romance started then, culminating later in their marriage.

Stoner park is an immense estate comprising 3,400 acres with gardens full of old-fashioned English flowers, sweet peas, foxgloves, hollyhocks and marigolds.

HER MOTHER'S GIFT, A \$60,000 ROPE OF PEARLS, MRS. RUMSEY'S GREATEST LOSS

Mrs. Charles Cary Rumsey (left) and Mrs. E. H. Harriman.

Among the gems stolen from the home of Mrs. Charles Cary Rumsey recently at Narragansett Pier, R. I., was a rope of pearls valued at \$60,000, the gift of her mother, Mrs. E. H. Harriman. Other gems were taken, but this was the most valuable bit of loot carried off by the robbers.

The best detective talent in the country has been employed to recover the stolen gems, but thus far there is no clew as to the identity of the thieves.

EXCLUSIVENESS.

"A HIGH degree of exclusiveness is only possible to do-nothings and only prized by know-nothings."

Last spring the question came up in our family as to the choice of a suburb for a summer boarding place.

There were two or three possibilities. I had almost settled upon one of them when I received a call from an acquaintance of mine, who is occasionally so kind as to honor me.

In her patronizing way she asked me if I had decided yet where we would live during the summer. I told her. She lifted her eyebrows. "But, my dear, I thought you said you were going to the West Side."

"I did say so," I admitted, "but I decided I liked the Heights better."

"You don't mean it!" exclaimed she. "I thought the West Side was infinitely nicer."

"But why?" I asked. "It is much lower, the car service isn't so good, and nowhere in the West Side is there so much open country or such a lovely view as we have at the Heights."

"Oh yes," she admitted. "I know you have a good view there, but my dear the West Side is so much more exclusive. I should think you would prefer it."

Being less bold with my tongue than with my pen, I didn't say what I wanted to. That was "My dear woman, I don't care a hang either for exclusiveness or for the people who effect it. That was one of the very reasons I didn't go to the West Side."

But that was exactly what I felt.

I hate exclusiveness. I hate exclusive people and exclusive things. Or I should say I hate people and things whose chief recommendation is their exclusiveness.

Perhaps you wonder what I mean by exclusive things. I mean things like diamonds and orchids, that people care for not so much because of their beauty as because of their costliness which makes it impossible for everyone to have them.

In a florist's window the other day I saw a small plant with three or four orchid blossoms on it. Underneath was marked the price—\$300. Now some rich man will probably buy that orchid, not because of the beauty, but because of the price, because he will know he is getting something exclusive.

The desire for exclusiveness in respect to either people or things is sure to give one a distorted vision.

The man or woman of any class who always seeks to meet only his or her particular kind of people will naturally grow narrow in mind, and attributed in soul and sympathy.

"People," said a man who had just passed through that tremendous mainstem, the New York subway, "gad, they are interesting. Make a man almost willing to have been born."

I think that is a great and true sentence, and the man or woman who is not interested in the big world of common people, the man or woman who worships the fetish of the small minded—exclusiveness—is punished by losing half the flavor of life.

DOMESTIC SCIENCE DEPARTMENT

Pare, core and slice two quarts of apples and put in a casserole dish alternately with one and one-half cups of sugar and one-fourth teaspoonful of cinnamon; add one-fourth cup of cold water, cover the dish and bake in a moderate oven. Serve either hot or cold with cream.

Apple Cobbler. Pare and quarter enough tart apples to fill a baking dish three-fourths full. Cover with a rich baking powder biscuit dough made soft enough to stir, spread it over the apples without rolling. Make several cuts in the center to allow the steam to escape. Bake for three quarters of an hour and serve hot with sugar and rich cream.

Apple Custards. Steam two large tart apples that have been cored. Rub them through a sieve and add one cupful of milk, two teaspoonfuls of butter, one-quarter of a cupful of sugar and the yolks of four eggs. Turn the mixture into baking cups, stand them in hot water and bake about twenty minutes. When they come from the oven pile the beaten white of egg on top of each, sprinkle with powdered sugar and place in the oven to brown slightly. Serve cold.

Coddled Apples. Take tart, ripe apples of uniform size, remove the cores. Place the fruit in the bottom of a porcelain kettle with water and allow the apples to simmer until tender. Pour the syrup over the apples and serve cold.

Apple Sauce Cake. Material—Butter, one-half cup; sugar, one cup; raisins, one cup; salt, one teaspoonful; cinnamon, one and one-half teaspoonfuls; grated nutmeg, one-half teaspoonful; apples, one cupful; baking soda, one teaspoonful; flour, two cupfuls.

Directions—Cream the butter and beat in the sugar, add the chopped raisins, dredged with flour, add the salt, cinnamon and grated nutmeg. Mix these ingredients. Dissolve the baking soda in a little warm water

Apple Butter. Pare, core and quarter the desired quantity of apples, allowing one-third of sweet to two-thirds of sour apples. Peel sweet cider until it is reduced one-half. While the cider is boiling rapidly add apples until the mixture is the desired thickness.

Cook slowly, stirring constantly and skimming when necessary. When the apples begin to separate from the cider, take two pounds of sugar to each bushel of apples used; add a little ground cinnamon and boil until it remains in a smooth mass, when a little is cooked. Usually one and one-half bushels of apples are enough for one and one-half gallons of boiled cider.

HEART and HOME PROBLEMS

Dear Mrs. Thompson: I have had a very dear boy friend for a long time. We became engaged to be married. We got along fine, never had a cross word, and never yet, but in March he said he would have to go to work. After he had worked about two months he began to not write as much and often as he had.

He came down here in July and I didn't get to speak to him. A month or so later he was mad at my parents, as they have been saying some few things.

(1) Do you think he would throw me away just for getting mad at them. If he had, I would be a lot better off.

(2) He came not long ago and was with another girl. Would you have anything else to do with him?

(3) He has often asked me if he could make me jealous. I told him I believe I could. I told him I would let him come to my house. Everyone has something to say about us. What must I say when they do this?

(4) I have another boy friend that I believe really loves me. Would you let him come to my house?

(5) My parents are cross to me and my heart is broken. Sometimes I think I had rather be dead. What should I do?

MISSISSIPPI GIRL. (1) Don't put much stock in what others say and don't let other people meddle between you.

(2) I am afraid you are a little jealous, my dear. He can be seen with another girl and still love you. Don't trust him a little and show him that you love him.

(3) Tell them you can attend to your own affairs.

(4) If you love the man you are engaged to, be loyal to him until you decide to quit him.

(5) Have a talk with your fiancé as soon as possible, and get things straight. Perhaps, in trying his best to make money, he is a little married, and if he knew your doubts he would be unhappy. Be nice to your parents and they will undoubtedly be nice to you. Don't go about with a sad face. Tell them you think you are not being treated right. It

DESSERTS WORTH TRYING.

There are few people who are willing to forego the pleasure of a dessert, and usually feel if none is provided that they have been defrauded.

Orange Charlotte.—Soak one and a half teaspoonfuls of gelatin in a third of a cup of water. To a third of a cup of boiling water add a cupful of sugar, three tablespoonfuls of lemon juice and a cup of orange juice and pulp. Chill in a pan of ice water; when quite thick beat until frothy and add the well beaten whites of three eggs beaten stiff and the whip from two cupfuls of cream. Line a mold with sections of orange. Turn in the mixture and chill.

College Pudding.—Mix a half cupful of butter with one and a half cupfuls of sugar, add four eggs well beaten, one half cup of strained apple sauce, a fourth of a teaspoonful of salt and the juice of lemon. Line a pudding dish with plain pastry, fill with the mixture and bake in a moderate oven. Serve with or without cream.

Blueberry Dumpling.—Sift together two cupfuls of flour, four teaspoonfuls of baking powder and a teaspoonful of salt. Add a tablespoonful of butter, and when well rubbed in add three-fourths of a cupful of milk. Put two cupfuls of sugar over four cupfuls of blueberries with a tablespoonful of vinegar, put into a buttered baking dish. Cover with the flour mixture and bake forty-five minutes. Serve from the dish in which it was baked.

Put a layer of ground pecans or walnuts over the custard pie; the nuts will form a crust over the top, and when baked will be truly delicious.

Peach Ice Cream is delicious. Press the peaches through a sieve after peeling, then add to any ice cream mixture flavored with almond.

Dear Mrs. Thompson: I have had a very dear boy friend for a long time. We became engaged to be married. We got along fine, never had a cross word, and never yet, but in March he said he would have to go to work. After he had worked about two months he began to not write as much and often as he had.

He came down here in July and I didn't get to speak to him. A month or so later he was mad at my parents, as they have been saying some few things.

(1) Do you think he would throw me away just for getting mad at them. If he had, I would be a lot better off.

(2) He came not long ago and was with another girl. Would you have anything else to do with him?

(3) He has often asked me if he could make me jealous. I told him I believe I could. I told him I would let him come to my house. Everyone has something to say about us. What must I say when they do this?

(4) I have another boy friend that I believe really loves me. Would you let him come to my house?

(5) My parents are cross to me and my heart is broken. Sometimes I think I had rather be dead. What should I do?

MISSISSIPPI GIRL. (1) Don't put much stock in what others say and don't let other people meddle between you.

(2) I am afraid you are a little jealous, my dear. He can be seen with another girl and still love you. Don't trust him a little and show him that you love him.

(3) Tell them you can attend to your own affairs.

(4) If you love the man you are engaged to, be loyal to him until you decide to quit him.

(5) Have a talk with your fiancé as soon as possible, and get things straight. Perhaps, in trying his best to make money, he is a little married, and if he knew your doubts he would be unhappy. Be nice to your parents and they will undoubtedly be nice to you. Don't go about with a sad face. Tell them you think you are not being treated right. It

DESSERTS WORTH TRYING.

There are few people who are willing to forego the pleasure of a dessert, and usually feel if none is provided that they have been defrauded.

Orange Charlotte.—Soak one and a half teaspoonfuls of gelatin in a third of a cup of water. To a third of a cup of boiling water add a cupful of sugar, three tablespoonfuls of lemon juice and a cup of orange juice and pulp. Chill in a pan of ice water; when quite thick beat until frothy and add the well beaten whites of three eggs beaten stiff and the whip from two cupfuls of cream. Line a mold with sections of orange. Turn in the mixture and chill.

College Pudding.—Mix a half cupful of butter with one and a half cupfuls of sugar, add four eggs well beaten, one half cup of strained apple sauce, a fourth of a teaspoonful of salt and the juice of lemon. Line a pudding dish with plain pastry, fill with the mixture and bake in a moderate oven. Serve with or without cream.

Blueberry Dumpling.—Sift together two cupfuls of flour, four teaspoonfuls of baking powder and a teaspoonful of salt. Add a tablespoonful of butter, and when well rubbed in add three-fourths of a cupful of milk. Put two cupfuls of sugar over four cupfuls of blueberries with a tablespoonful of vinegar, put into a buttered baking dish. Cover with the flour mixture and bake forty-five minutes. Serve from the dish in which it was baked.

Put a layer of ground pecans or walnuts over the custard pie; the nuts will form a crust over the top, and when baked will be truly delicious.

Peach Ice Cream is delicious. Press the peaches through a sieve after peeling, then add to any ice cream mixture flavored with almond.

WEATHER FAVORABLE FOR MATURING CROP

Tobacco in Southern Section Making Rapid Strides During Past Few Days.

Had the weather of the past week been furnished to order it could hardly have been improved on for the maturing of the growing tobacco crop. The fields are making such phenomenal advancement toward the harvest as is rarely seen in this state. Even the very late set may yet exceed all expectations. The harvest has been started in a limited way in many sections and will become quite general the coming week, but the tobacco topped since the first week of the month bids fair to yield the most promising leaf of the season. Buyers have been riding the country districts, some trying to learn the extent of the recent hail damage but we do not learn of any field buying as yet.

Local dealers report plenty of inquiry for cured binders but few have their samples ready for inspection. The only transaction coming to notice is the sale of a 35c lot of '12 by Holton & Osgard, Stoughton packers, to Well & Son.

The shipments out of storage reach 5000 from this market to all points since last report—Edgerton Reporter.

[An Associated Press.] Appleton, Aug. 22.—A record breaking real estate deal for Outagamie county was closed here yesterday when John Conway, proprietor of the Sherman House, sold his 100 acre farm in Grand Chute, two miles from the city limits, to Elmer Renner for \$26,000. The deal did not include any of Mr. Conway's live stock or machinery. The farm is considered one of the best equipped in the state, however, having a modern house, horse and cattle barns, brooder and chicken house, creamery, power house, hog barn, silo, machinery building and is equipped with electric light and running water. It is a tiled, drained arm. Conway's herd of registered cattle will remain on the farm a year if he so desires. UNCLE WALT
The Poet Philosopher.
Copyright, 1909, by George Mathew Adams
BY WALT MASON

When dire misfortune comes along and knocks the other chap all wrong, I'm always in good form; I tell him that his face should shine, that it is wicked to repine, to yield before the storm. But when the hail comes down, alas! and ruins all my garden saas, I am too sore to talk; and when my neighbor comes to say

dance and sing all day, I chase him round a block. Old Bulger has the rheumatiz, and through his frame the

pink pains whiz, and so he sits and groans. "Brace up, brace up, and be a man, and be as joyful as you can," I say, in cordial tones. But last week, when I broke my shin, I did not care and grin to any great extent, and when old Bulger came to spring some dope, advising me to sing, I cussed him till he went. It's easy for the gaffer wise to sit up and philosophize o'er other people's woes; but can he keep his smile on straight when an unkind, remorseless fate shall lash him on the nose? It isn't hard to calmly view the grief that makes our neighbor blue, and of his duty talk; but it requires of grit a deal to smile when on an orange peel we step and fall a block.

SIDEWALK SKETCHES

CELERY.

By Howard L. Rann.

Celery is a pale, bristling vegetable which is extracted from the ground in its original, deshabille, after which it is given a shower bath under the kitchen faucet and turned loose upon a company of expectant guests. Sometimes the deshabille refuses to come off and gives the celery a streaked and melancholy appearance, which causes fussy guests to pass it up with a polite and apologetic cough.

Celery is a blood relative of the Swedish turnip but lacks the caustic temperament and biting tongue of that noble plant.

It is usually grown on land that will not raise anything but the bow-legged bulldog and the light-footed water bug, and before being harvested with a pen knife and a pair of hip boots it carries the rich purple complexion of a queen of the olive.

It is not considered fit for market, however, until it has been given the

same treatment that creates the peroxide blonde.

Celery is one of the noisiest side dishes ever invented, being full of genteel reverberations which die away in a musical cadence at the other end of the table. When several people are eating celery at the same time, there is a pleasing unanimity of expression and harmonic ensemble which is excelled only by the efforts of the amateur string quartet.

In its native state celery is equipped with a handle, which is considered the best part of the bird. All pieces of this description, however, are usually sorted out by the grocer and taken home for family use.

Short, crisp strips of celery which have been picked while in their teens are carefully sorted out of the dish by thoughtful guests, who do so while apparently in a state of complete abstraction.

In order to secure the best results, celery should be eaten the same spring it is shipped. Nothing is more embarrassing to a nervous man than to wrestle fruitively with a rubberized stalk of celery and try to induce it to let go without using both hands.

**ATTENDS STATE CONVENTION
NATIONAL FRATERNAL LEAGUE**

Dr. E. N. Sartell of this city, who is attending the state convention of the National Fraternal League at Manitowoc, has been honored with an appointment to the credentials committee. Nearly 200 delegates were present at the opening session yesterday. They were welcomed by Mayor Henry Stolz, Jr. Responses were made by C. N. Cramer of Grand, C. M. Gooding, Supreme Counselor, of Fond du Lac, and Theodore Dilling of the same city.

**Constipation and
Heat Often Fatal**

Regularity of Bowels Very Important to Health at This Time.

At no time of the year should people be more careful of the condition of their bowels than in hot weather. Many things may cause constipation in summer, but whatever it may be the trouble should be promptly remedied. A constipated person lays himself or herself open to serious and often fatal diseases. That feeling of congestion, lassitude or dull headache is the first warning of trouble.

Don't try to remedy it by the excessive eating of fruit, which usually has a laxative effect but lacks action in extreme cases. What is needed is a reliable but mild laxative tonic like Dr. Caldwell's Syrup Pepsin. Take a dose of it at night before retiring—it is pleasant-tasting and free from griping—and by morning your bowels will be emptied and your head clear. You will feel energetic again.

You cannot obtain such results with cathartics, purgatives, salts or pills, as, unlike Dr. Caldwell's Syrup Pepsin, they are without tonic value and, entirely too harsh. Among the thousands of dependable converts to Syrup Pepsin are the families of Mr. F. C. Harris, Live Oak, Fla., who now finds his stomach better than it has been in ten years; and Mrs. T. D. Diemer, Washington St., Monticello, Ill.

835 San Pedro St., Trinidad, Colo., who is cured of various digestive troubles after all doctors that she knew had failed. A bottle can be obtained of any druggist at fifty cents or one dollar, the latter size being for family use. Results as claimed are guaranteed or your money will be refunded. This grand remedy is the safeguard of health in thousands of good American families.

Families wishing to try a free sample bottle can obtain it postpaid, by addressing Dr. W. B. Caldwell, 418

Washington St., Monticello, Ill.
